Quarterly operations report

1 Operations area 1

Area 1 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 1 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 1. Area 1 deliveries

Month	Orders	On time
July	40	96.0%
August	40	96.0%
September	40	96.0%
Quarter	40	96.0%

2 Operations area 2

Area 2 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 2 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 2. Area 2 deliveries

Month	Orders	On time
July	41	96.1%
August	41	96.1%
September	41	96.1%
Quarter	41	96.1%

3 Operations area 3

Area 3 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 3 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 3. Area 3 deliveries

Month	Orders	On time
July	42	96.2%
August	42	96.2%
September	42	96.2%
Quarter	42	96.2%

4 Operations area 4

Area 4 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 4 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 4. Area 4 deliveries

Month	Orders	On time
July	43	96.3%
August	43	96.3%
September	43	96.3%
Quarter	43	96.3%

5 Operations area 5

Area 5 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 5 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 5. Area 5 deliveries

Month	Orders	On time
July	44	96.4%
August	44	96.4%
September	44	96.4%
Quarter	44	96.4%

6 Operations area 6

Area 6 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 6 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 6. Area 6 deliveries

Month	Orders	On time
July	45	96.5%
August	45	96.5%
September	45	96.5%
Quarter	45	96.5%

7 Operations area 7

Area 7 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 7 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 7. Area 7 deliveries

Month	Orders	On time
July	46	96.6%
August	46	96.6%
September	46	96.6%
Quarter	46	96.6%

8 Operations area 8

Area 8 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 8 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 8. Area 8 deliveries

Month	Orders	On time
July	47	96.7%
August	47	96.7%
September	47	96.7%
Quarter	47	96.7%

9 Operations area 9

Area 9 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 9 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 9. Area 9 deliveries

Month	Orders	On time
July	48	96.8%
August	48	96.8%
September	48	96.8%
Quarter	48	96.8%

10 Operations area 10

Area 10 shipped on time in every week of the quarter. Freight costs per unit fell again as consolidated sailings replaced part-loaded containers across Bass Strait.

Timber purchasing for area 10 moved further toward certified sources, and the Moonah kilns dried every delivery to the agreed moisture content before it left the yard.

Warranty claims stayed below one percent of units shipped. Continue to the next operations area.

Table 10. Area 10 deliveries

Month	Orders	On time
July	49	96.9%
August	49	96.9%
September	49	96.9%
Quarter	49	96.9%
