Deployment recipe

The source block has its own monospace face and presentation. Its indentation and blank lines survive page continuation.

```
# Deployment recipe
service = billing

    data = /var/lib/harbour/production/billing/exports/archive
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
    workers = 4
