# Operations review

## 1 Region 1

1.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

## 2 Region 2

2.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

## 3 Region 3

3.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

## 4 Region 4

4.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

## 5 Region 5

5.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

## 6 Region 6

6.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

## 7 Region 7

7.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 8 Region 8

8.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 9 Region 9

9.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 10 Region 10

10.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 11 Region 11

11.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 12 Region 12

12.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 13 Region 13

13.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 14 Region 14

14.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 15 Region 15

15.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 16 Region 16

16.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 17 Region 17

17.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 18 Region 18

18.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 19 Region 19

19.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 20 Region 20

20.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 21 Region 21

21.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 22 Region 22

## 22.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 23 Region 23

## 23.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 24 Region 24

## 24.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 25 Region 25

## 25.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 26 Region 26

## 26.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 27 Region 27

## 27.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 28 Region 28

## 28.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 29 Region 29

29.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 30 Region 30

30.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 31 Region 31

31.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 32 Region 32

32.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 33 Region 33

33.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 34 Region 34

34.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 35 Region 35

35.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 36 Region 36

36.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 37 Region 37

37.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 38 Region 38

38.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 39 Region 39

39.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 40 Region 40

40.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 41 Region 41

41.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 42 Region 42

42.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 43 Region 43

## 43.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 44 Region 44

## 44.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 45 Region 45

## 45.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 46 Region 46

## 46.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 47 Region 47

## 47.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 48 Region 48

## 48.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 49 Region 49

## 49.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.

# 50 Region 50

## 50.1 Findings

Stock counts matched the warehouse system in every aisle, and returns were processed within two days.
